

SUMMARY

Illicit Discharge Detection and Elimination Task Force

Thursday, January 8, 2015

9:30 a.m., Tejas Room

Welcome and Introductions

Action and Discussion Items

1. Summary from last meeting

The meeting summary from the October 2, 2014 meeting was accepted as presented.

2. FY2015 IDDE Project Update

a. IDDE poster series

The IDDE poster series – a companion piece to the IDDE poster completed last project year, will use images from the existing poster, verbiage from the IDDE Field Guide, and be sized 11" x 17". NCTCOG staff will work up drafts to be distributed, including potential wording, ideally before the next meeting in April. The preference is to have these posters and the existing one available through the Cooperative Purchase in the future.

b. Spanish translation for the IDDE video

The City of Carrollton will provide Spanish translation of the script and a narrator for the IDDE video. Translation work on the video will begin soon.

c. The standing project – the dry weather field screening/IDDE basics workshop

The City of Carrollton will host the Spring 2015 IDDE Basics/DWFS Workshop. The City of Fort Worth will act as the instructor with possible participation from other cities.

d. Industrial Inspector Workshop

The oft-delayed Industrial Inspector Workshop (a project carryover from FY2014) will take place at the Denton Municipal Airport on January 14th. Mock inspections will be at the airport, and Peterbilt and TetraPak manufacturing facilities.

3. Advanced IDDE Workshop

The sample/draft agenda for an advanced IDDE workshop was presented. No changes were made. Agenda available online with other IDDE meeting handouts at:

<http://www.nctcog.org/envir/committees/rswmcc/IDDE/index.asp>. The advanced workshop

would be a project for FY2016 at the earliest and initial plans are for the City of Fort Worth to host. The City of McKinney has indicated their willingness to be a backup location.

4. FY2016 projects

Following discussion, the two projects selected for FY2016 are the Advanced IDDE Workshop and a FAQ sheet for potable water discharge and fish kill requirements. The standing project for FY2016 is the Industrial Inspector Workshop.

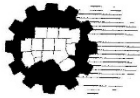

5. Case studies from Irving and Grand Prairie

The Cities of Irving and Grand Prairie presented case studies from their jurisdictions. The North Texas Tollway Authority will present at the April meeting and the City of Denton in July. After that, case studies will be done on an as needed or as interesting cases come up basis.

Roundtable / Discussion

Next meeting

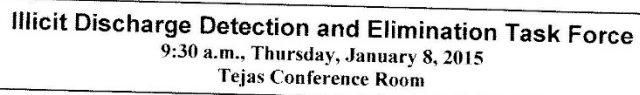

The next IDDE Task Force meeting is scheduled for Thursday, April 2, 2015 at 9:30 a.m., in the Tejas Room, Third Floor, 600 Six Flags Drive, Arlington, Texas.
