

2017 Population Estimates Highlights

North Central Texas Council of Governments | April 2017

Executive Summary

The estimated January 1, 2017 population for the NCTCOG region is 7,246,350. Last year, the region added 123,000 people. In 2016, 25 cities grew by more than 5%. The city of Dallas led the region in growth, adding more than 12,000 people last year while Fort Worth added 9,000, followed by McKinney with 8,200. Collin, Denton, Dallas, and Tarrant counties each added more than 20,000 people last year, accounting for 85% of the regional growth.

Residential construction continued to trend upward as low interest rates and corporate relocations solidified the north central Texas region as one of the most desirable locations to live. A friendly business environment, mild weather, and the variety of industries have made the area a popular destination for years. Since 2000, the region has grown by 36%. Nearly 45,000 new residential units were completed in 2016-24,400 single-family and 20,500 multi-family. The city of Dallas led the way in residential units with more than 8,000 completions in the past year. More than 80% of these new units were multi-family. Dallas accounted for one third of all new multi-family units added to the region in 2016. Fort Worth had more than 4,000 residential completions. The top 10 cities in new construction accounted for 60% of all units built last year. With 50,000 multi-family units currently under construction and no apparent slow-down in single-family construction, the region is poised to continue an upsurge in residential completions in 2017.

Population by Planning Area

	2000 U.S. Census April 1	2010 U.S. Census April 1	2016 NCTCOG Estimate January 1	2017 NCTCOG Estimate January 1
12 County MPA*	5,197,317	6,417,724	6,992,710	7,115,250
16 County NCTCOG Region	5,309,277	6,539,950	7,123,170	7,246,350

TRANSPORTATION PUBLIC MEETINGS

Transportation Alternatives Set-Aside Program Recommended Projects

Staff will present the list of recommended projects for funding in the 12-county North Central Texas Council of Governments Metropolitan Planning Area. Projects eligible under this program include on- and off-road pedestrian and bicycle facilities, multimodal connections to public transportation, and pedestrian and bicycle infrastructure associated with Safe Routes to School projects that will substantially improve safety and the ability for students to walk and bicycle to school.

New Federal Transportation Funding

Staff will be presenting on a proposed process to select projects via funding programs for an overall amount of approximately \$345 million in federal funds. The projects will be categorized into approximately 11 programs based on similar goals. Project selection is proposed to occur in stages throughout 2017 and possibly into early 2018.

Mobility 2045: The Metropolitan Transportation Plan for North Central Texas Kick-off

One of the primary responsibilities of a Metropolitan Planning Organization is the development and maintenance of a metropolitan transportation plan (MTP). The last comprehensive update of the MTP occurred in 2016 with the adoption of Mobility 2040. Staff has initiated the development of a new MTP, Mobility 2045. This Plan will reassess existing recommendations and include new demographics, financial forecasts and planning initiatives. Staff is working with partners to develop draft recommendations and will present an overview and proposed timeline for the Plan.

Joining Forces: Aligning Community & Military Missions

NCTCOG is collaborating with military and community leaders for Joining Forces, a Regional Joint Land Use Study (JLUS) that will identify and recommend voluntary communications and land use strategies that support continued military capabilities. During a JLUS, the cities and counties surrounding the military installation work with the installation to plan and carry out specific actions that will promote compatible community and economic growth. Staff will present project activities conducted to date as well as remaining public involvement opportunities.

Other Information to be Highlighted at the Meetings:

- Auto Occupancy Detection Technology Pilot Program Recruitment
- 2017 Clean Air Action Day

The Arlington meeting will be live streamed at www.nctcog.org/video (click on the "live" tab). A video recording of this meeting will also be posted online at www.nctcog.org/input.
