Trinity River National Water Trail Master Plan

SEPTEMBER 2024

**Regional Stormwater Management Coordinating Council
May 21, 2025**

**Erin Blackman, E&D Planner, NCTCOG
eblackman@nctcog.org**

North Central Texas
Council of Governments

Background

2018: Trinity Coalition (TC) met with NCTCOG, 9 cities, 1 county

2020: TC received National Water Trail designation for 130-mile section of Upper Trinity River

2023-2024: NCTCOG developed a small-scale Master Plan

2018-2020: TC received letters of support and applied to National Park Service for National Recreation Trail status

2021-2024: Partners formed Trinity River National Water Trail Task Force and NCTCOG hosted meetings

Master Plan Purpose

- Identify long-range actions that advance:
 - Tourism
 - Recreation
 - Economic development
- Provide resources to help maintain National Water Trail status and for enhancement opportunities

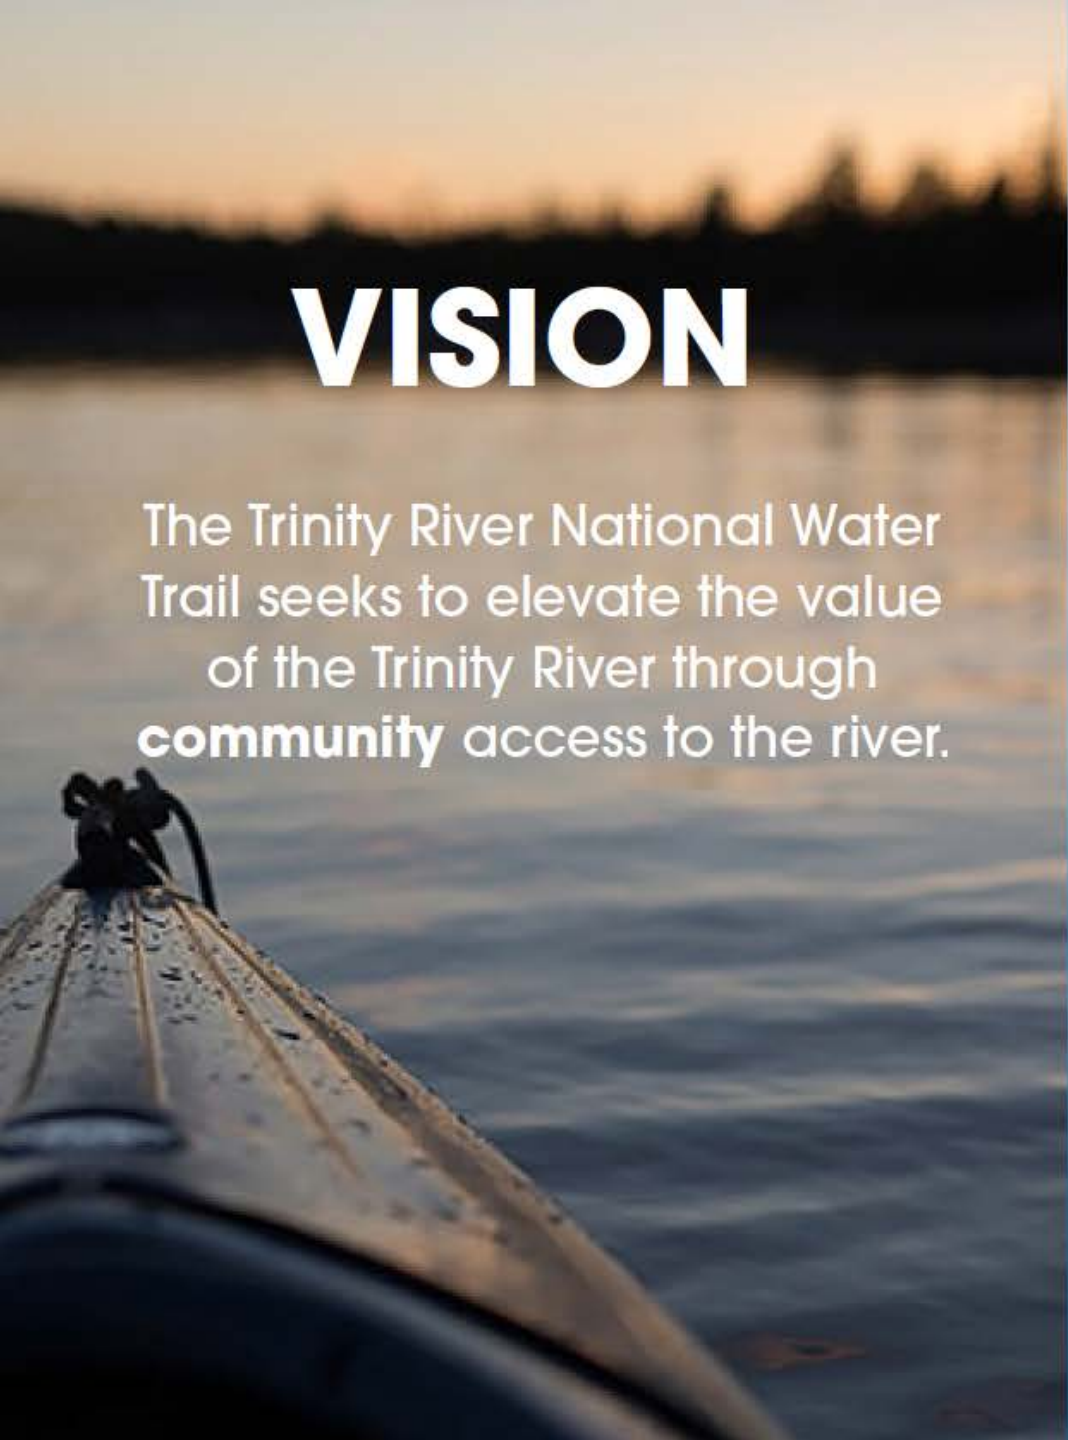

Master Plan Layout

- Vision and Mission
- Goals
 - Outcomes
 - Strategies
- Recommendations
 - Action Items
 - Case Study

Photo Credit: Trinity Coalition

VISION

The Trinity River National Water Trail seeks to elevate the value of the Trinity River through **community** access to the river.

MISSION

This will be achieved by ensuring access is safe and equitable, protecting natural resources, promoting economic and cultural assets, and integrating land trail connections and trail expansion. This Trinity River National Water Trail Master Plan will identify long-range actions to advance these ideas, and to help communities develop the Water Trail and identify resources.

GOALS

DEVELOPMENT

Develop new entry sites and expand the footprint of the existing water trail.

PROMOTION

Promote the use of the Water Trail and educate all users.

ACCESS

Make the Water Trail more accessible to all.

MAINTENANCE

Maintain condition and safety of the Water Trail's existing and future launch sites.

PROTECTION

Promote stewardship along the Trinity River.

INTEGRATION

Connect the Water Trail to existing land trails.

PROSPERITY

Promote the economic benefits of the Water Trail.

LEGACY

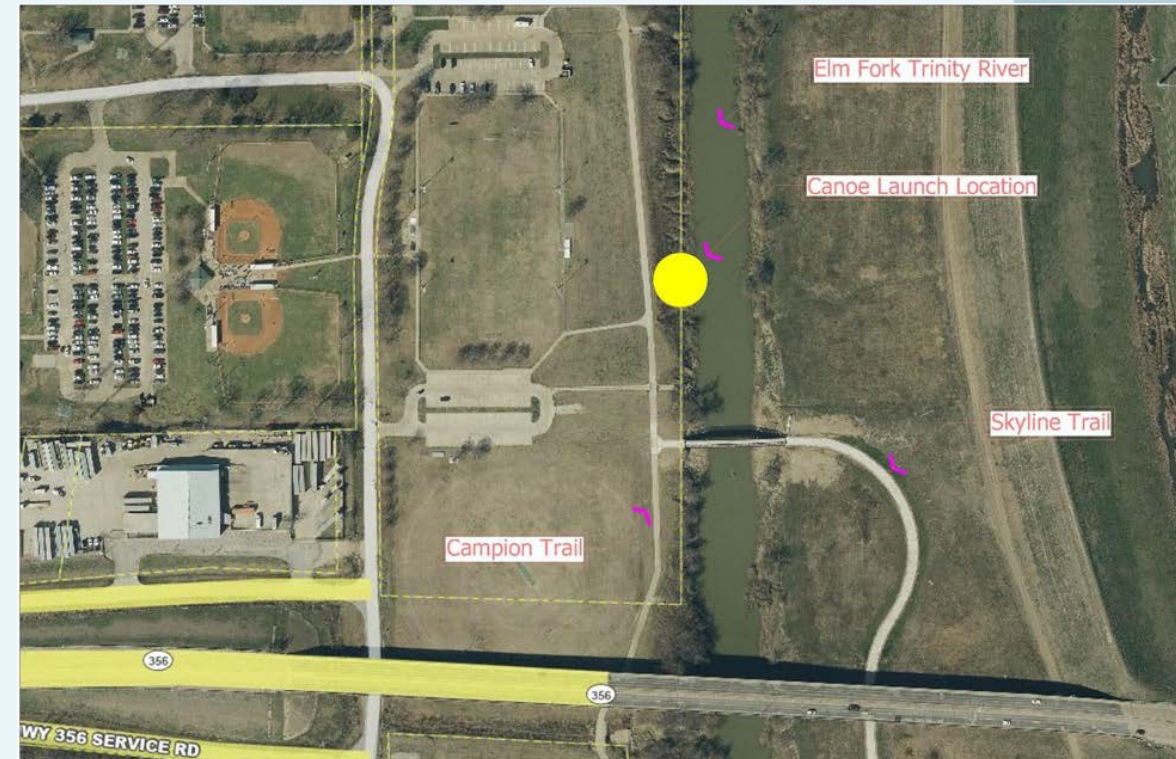

Highlight the cultural and historical context of the Water Trail.

DEVELOPMENT

Develop new entry sites and expand the footprint of the existing Water Trail.

- Identify priority gaps along the Water Trail
- Identify common projects to leverage joint investments and development opportunities

Future launch site location at Trinity View Park, Irving

PROMOTION

Promote the use of the Water Trail
and educate all users.

- Establish regularly-scheduled trail focus meetings for additional stakeholder input
- Increase sharing of information to improve communication with stakeholders

Photo Credit: Trinity Coalition

ACCESS

Make the Water Trail more
accessible to all.

- Identify ADA accessible launch sites
- Ensure best practice design standards meet accessibility standards
- Involve advocacy group in the planning and design process
- Conduct outreach and educational programs

Photo Credit: Trinity Coalition

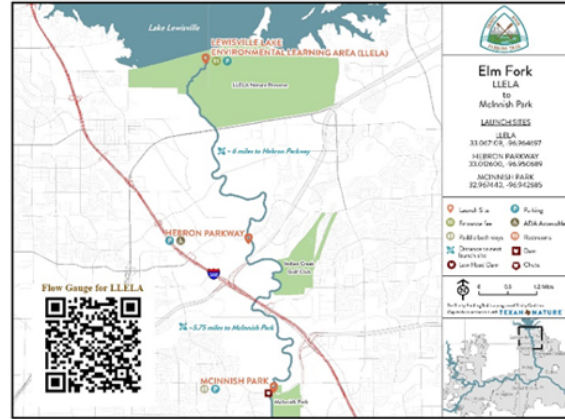

MAINTENANCE

Maintain condition and safety of the Water Trail's existing and future launch sites.

- Identify and document BMPs for launch site construction and maintenance
- Enhance tools to electronically collect and report trail conditions
- Maintain cohesive signage and clearly mark hazard areas

Trinity River Paddling Trail
Lewisville Lake Environmental Learning Area

Current location:
LLELA
Lewisville Lake
Environmental
Learning Area
DD: 33.067109° -
96.964697°

Next Take-out:
Hebron
Parkway Rd
~6 miles /
~ 2.5 hrs
DD: 33.012600° -
96.950689°

This section has Cell coverage. In case of emergency call 911. River section LLELA to Huffines Park at Hebron Parkway, Lewisville

River conditions: this section of the river starts out with shallow fast moving current. Downstream the river widens and slows. **Hazards:** please watch for fallen trees that can go completely across the river.

TRINITY RIVER NATIONAL WATER TRAIL

For more information: <https://trinitycoalition.org/>

Signage installed at the Lewisville Lake Environmental Learning Area launch site

PROTECTION

Promote stewardship along the Trinity River.

- Distribute information that educates visitors about the ecosystem, conservation practices, and proper trail use
- Mobilize volunteers and community groups to participate in regular river cleanups
- Partner with nonprofits and neighboring communities to regularly test water samples

Texas Stream Team volunteers in Fort Worth testing water quality

INTEGRATION

Connect the Water Trail to existing land trails.

- Create a recreational map that also includes land trails, bike paths, and points of interest
- Create guidelines for signage that show the relation to other trails

Hike and bike trails along the Water Trail

PROSPERITY

Promote the economic benefits of the Water Trail.

- Complete studies on the economic impact and value
- Collaborate with tourism bureaus to promote ecotourism and recreational activities
- Promote local businesses and services that cater to recreational activities

Kayak rentals at Panther Island

LEGACY

Highlight the cultural and historical context of the Water Trail.

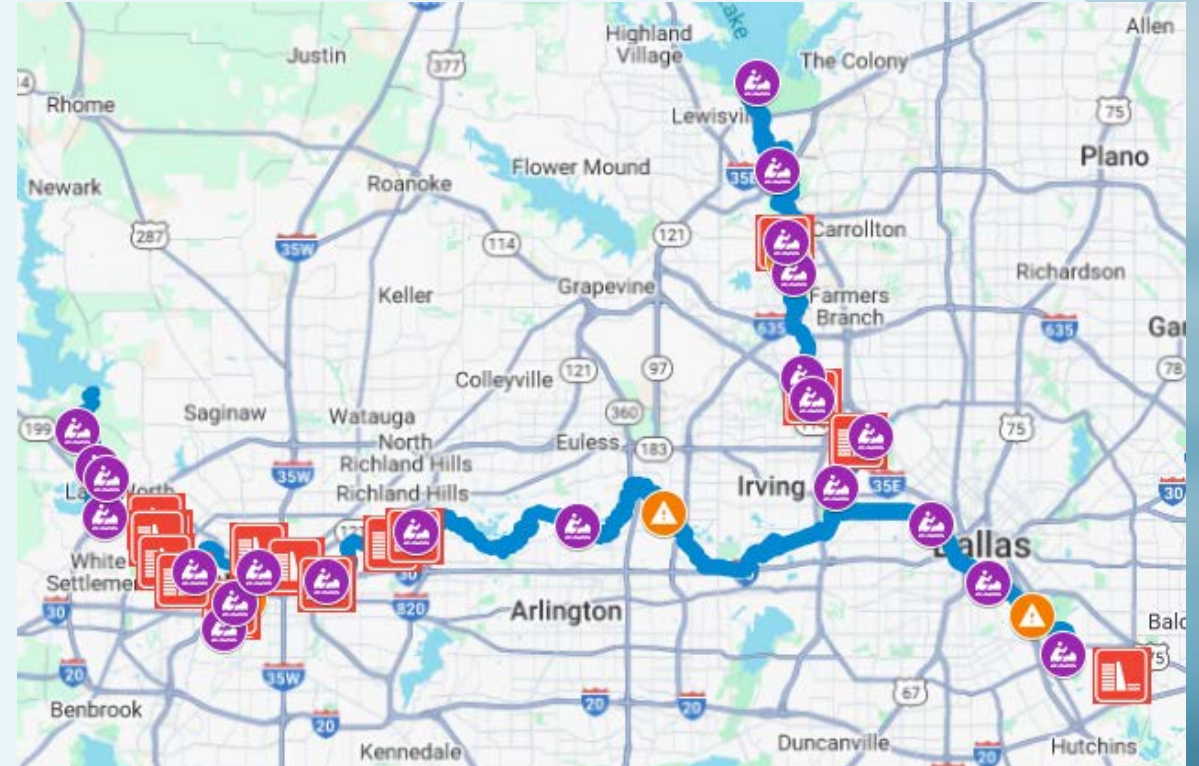

- Host community events, workshops, and storytelling sessions
- Work with organizations/populations to capture the cultural and historical context

North Central Texas
Council of Governments

Planning to Reduce Future Flood Risk

RSWMCC Meeting | May 21, 2025

Funded by the Texas General Land Office,
Community Development Block Grant,
Disaster Recovery Program.

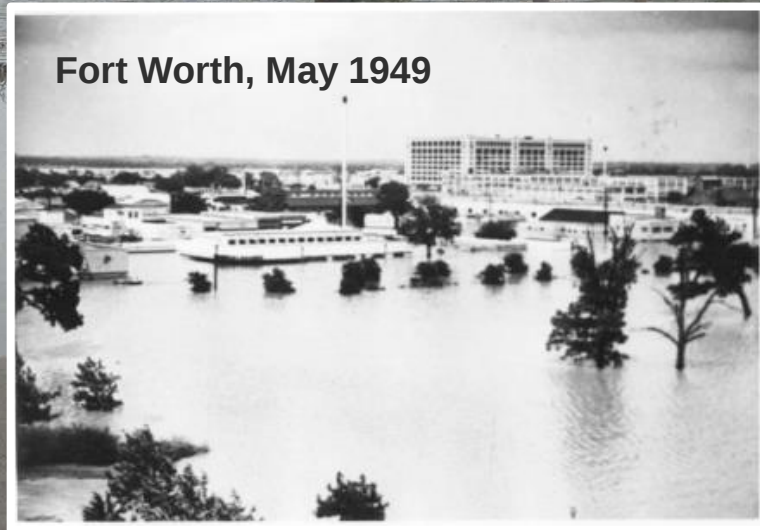

Also Funded by the Texas Water Development Board
and Texas Department of Transportation.

Project Background

www.nctcog.org/tsi

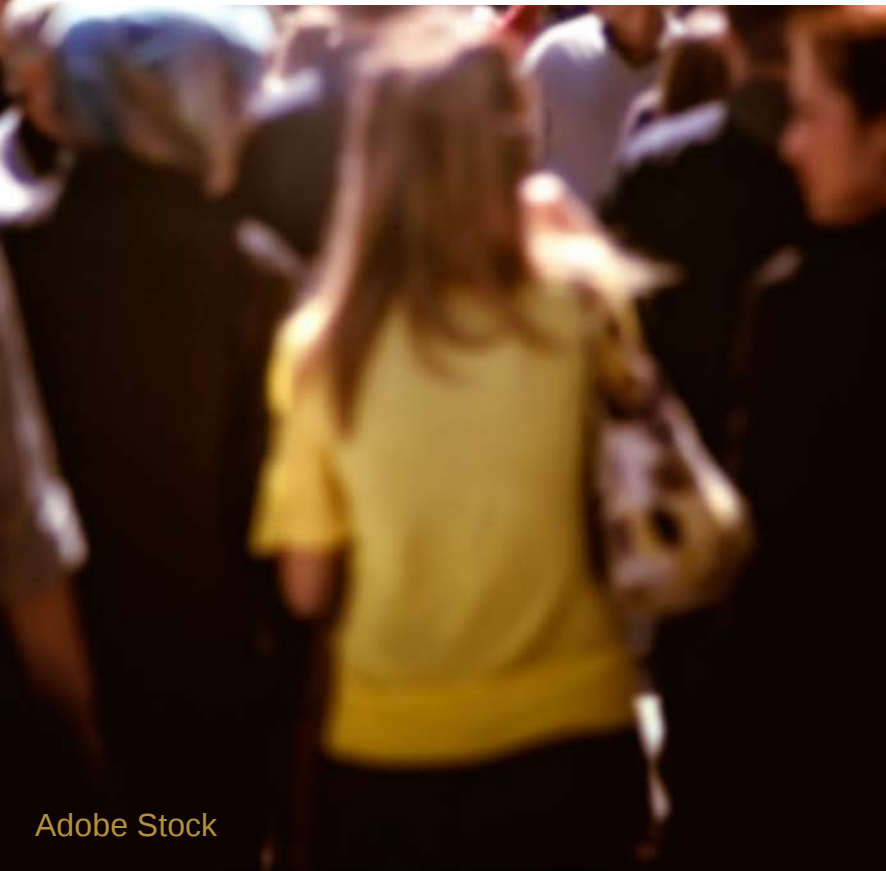

Historic flooding led to improvements in flood control infrastructure. But a need remains.

Fort Worth, May 1949

Rhome, May 2015
Courtesy Tarrant Regional Water District

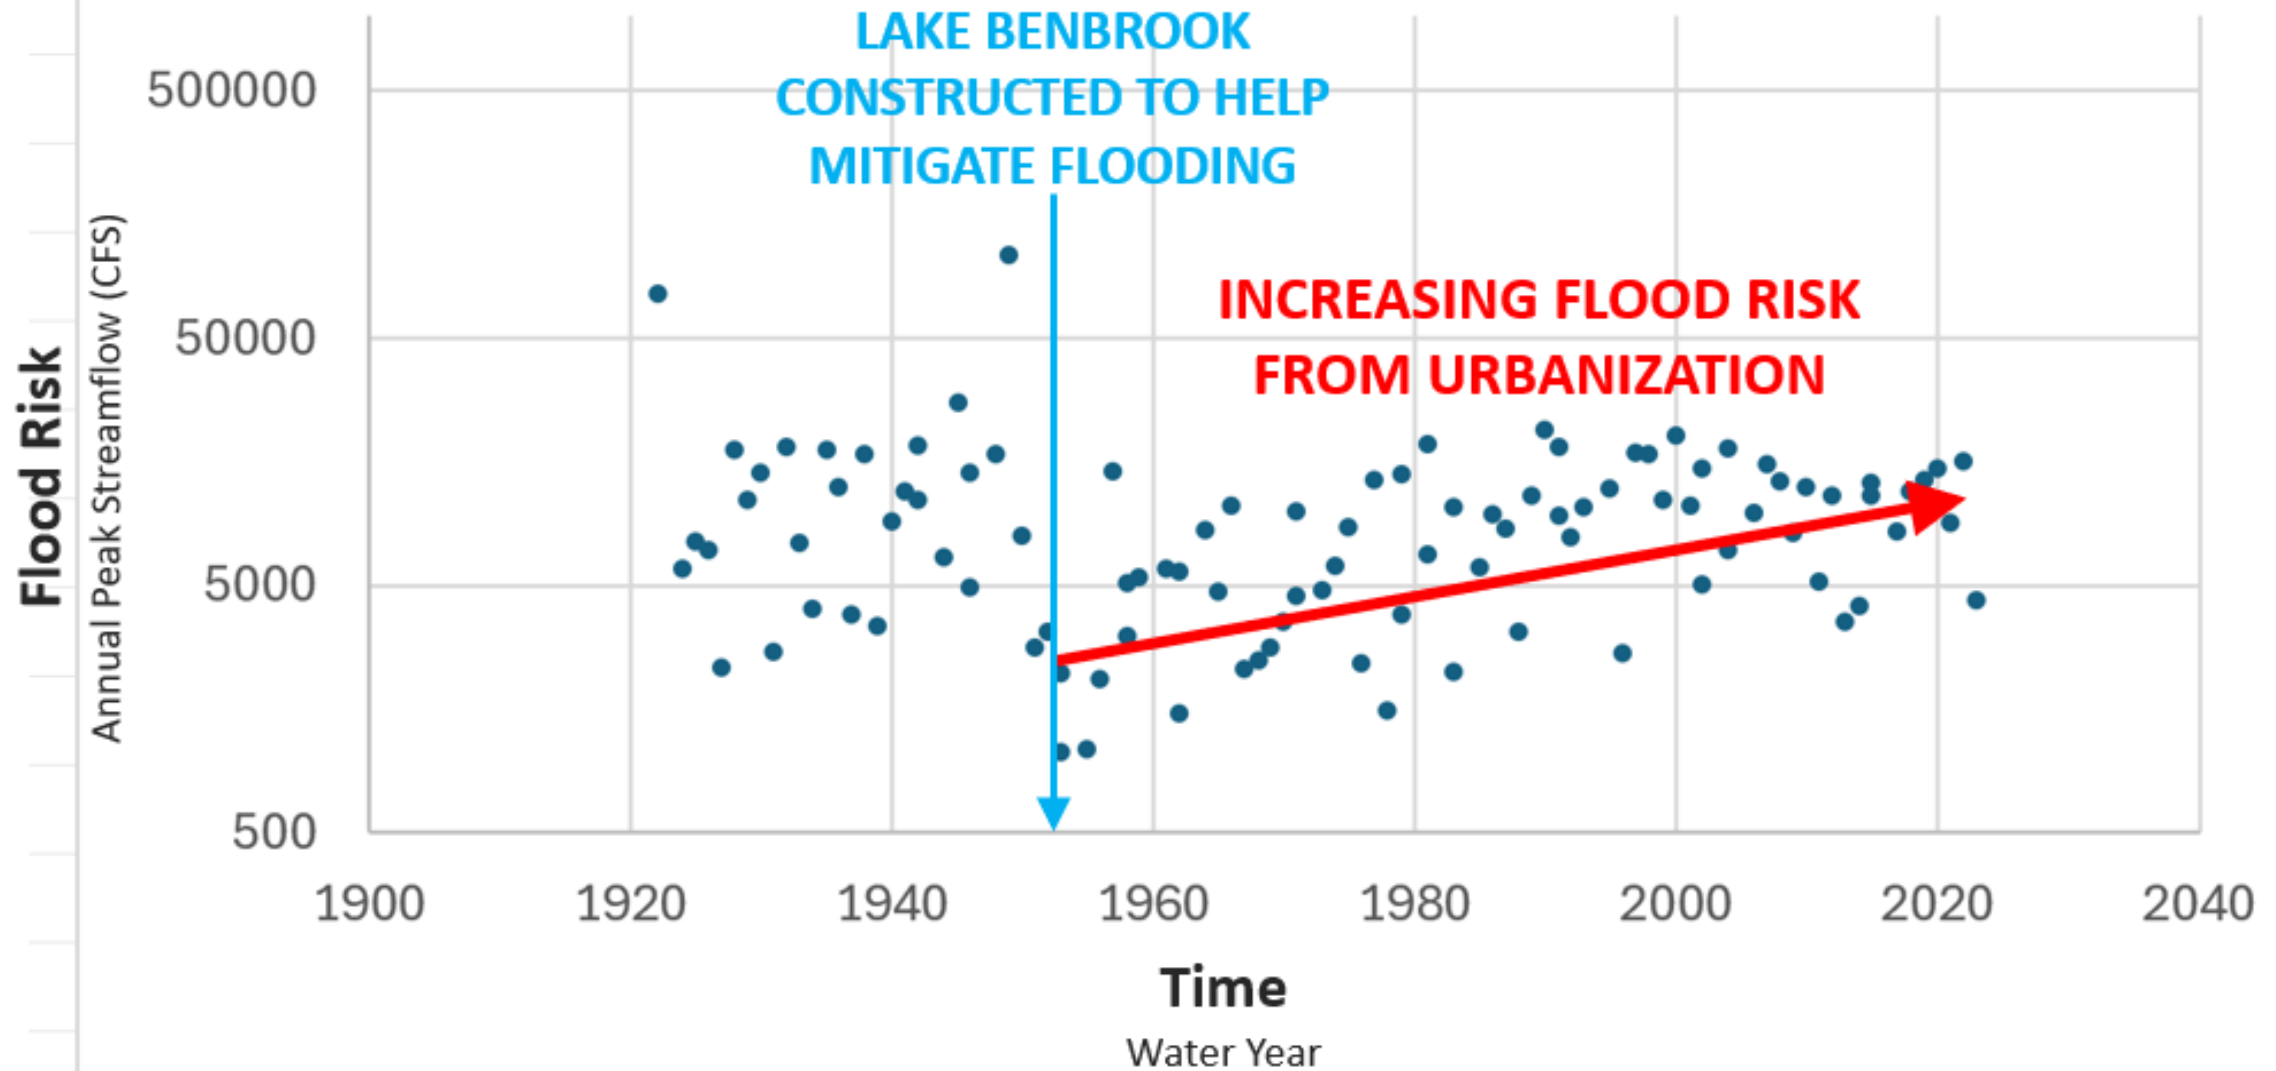

The integrated Transportation and Stormwater Infrastructure study proactively addresses the increased flood risk resulting from extraordinary population growth in the Upper Trinity River basin.

City of
Newark

Increasing Flood Risk in North Texas

Fort Worth, TX: Clear Fork of Trinity River

TSI outputs will empower engineers, local governments, and developers to reduce the threat to people, property, and infrastructure.

**Collect and
Analyze Data**

**Assess Hydrology
and Hydraulics
Scenarios**

**Identify
Transportation
Infrastructure Impacts**

**Conduct
Environmental
Planning**

**Evaluate a Real-
Time Flood
Warning System**

**Support and
Empower
Communities**

Project Partners

West Study Area

North Central Texas Council of Governments

US Army Corps of Engineers

University of Texas at Arlington

Texas A&M AgriLife Extension Service

Tarrant Regional Water District

Freese and Nichols, Inc.

Halff Associates, Inc.

North Study Area

North Central Texas Council of Governments

Upper Trinity Regional Water District

Halff Associates, Inc.

Highland Economics, LLC

University of Texas at Arlington

Texas A&M AgriLife Extension Service

Estimated Study Timeline

Through Fall 2025

Continue training workshops and site visits to individual communities

March 2026

Conduct project update meeting to present findings and seek stakeholder feedback

July 2026

Submit deliverables to funding agencies

Winter 2025/2026

Complete H&H modeling and identify transportation, environmental and other policy recommendations

June 2026

Conduct project update meeting to present final products incorporating stakeholder feedback

The effectiveness of TSI outputs depends on engagement from local governments and other stakeholders. Help us help you.

LOCAL GOVERNMENT FAQ

RSWCC Opportunity to Guide TSI Outputs

SYNERGY BETWEEN TSI AND SWMP

TSI GSI Recommendations + RSWMCC Input =

Regional policy recommendations
that support MS4-compatible
BMPs:

- GSI for post-construction runoff
- Long-term operation
- Maintenance controls

TSI Model Ordinances and Recommendations to Incorporate in Planning Products + RSWMCC Input =

Planning procedures that support growth without compromising water quality

TSI Recommendations of Incentives to Preserve Open Space and Riparian Zones + RSWMCC Input =

Regional policy recommendations
that support site-planning based
BMPs

TSI Recommendations for Temporary Detention and Porous Pavement + RSWMCC Input =

Regional policy recommendations
that reduce stormwater runoff and
reduce mobilization of pollutants

TSI Recommendations Including Vegetation such as Bioswales and Artificial Wetlands + RSWMCC Input =

Regional policy recommendations
that promote vegetative BMPs

TSI Recommendations to Integrate Transportation and Stormwater Infrastructure + RSWMCC Input =

Regional policy recommendations
to divert road and bridge runoff to
vegetated areas or GSI

89th Texas Legislative Updates

BILL	AUTHOR	STATUS	TOPIC
<u>HB 517</u>	Rep. Davila	Signed in Senate 05/14/25	Watering restrictions, landscaping/vegetation, HOAs. Relating to the authority of a property owners' association to assess a fine for discolored vegetation or turf during a period of residential watering restriction. Identical Bills: HB 359, SB 542
<u>HB 1370</u>	Rep. Raymond	Left pending in House committee 05/05/25	Landscaping and lawn care, xeriscape. This bill relates to an exemption from ad valorem taxation of the amount of the appraised value of real property that arises from the use of xeriscape on the property.
<u>HB 1904</u>	Rep. Canales	Senate received from House 05/09/25	Relating to the release of balloons and associated littering; creating a criminal offense. Bill amends the Health and Safety Code by adding a subdivision to address littering from intentional releases of balloons outside of a roofed structure. Would create Class A, B, or C misdemeanors based on the weight or volume of the deflated balloons.

FY26 Appointments & Reappointments

Upcoming Watershed Elections:

- NCTCOG staff will contact members with expiring terms.
- Staff will send out (re)appointment emails and calls for nominations for each watershed, as listed on next slide.
- Individuals nominated for (re)appointment will be brought forward to the corresponding RSWMCC watershed members for a vote.
- The new/reappointed members will be announced at the August meeting.

FY26 Appointments & Reappointments

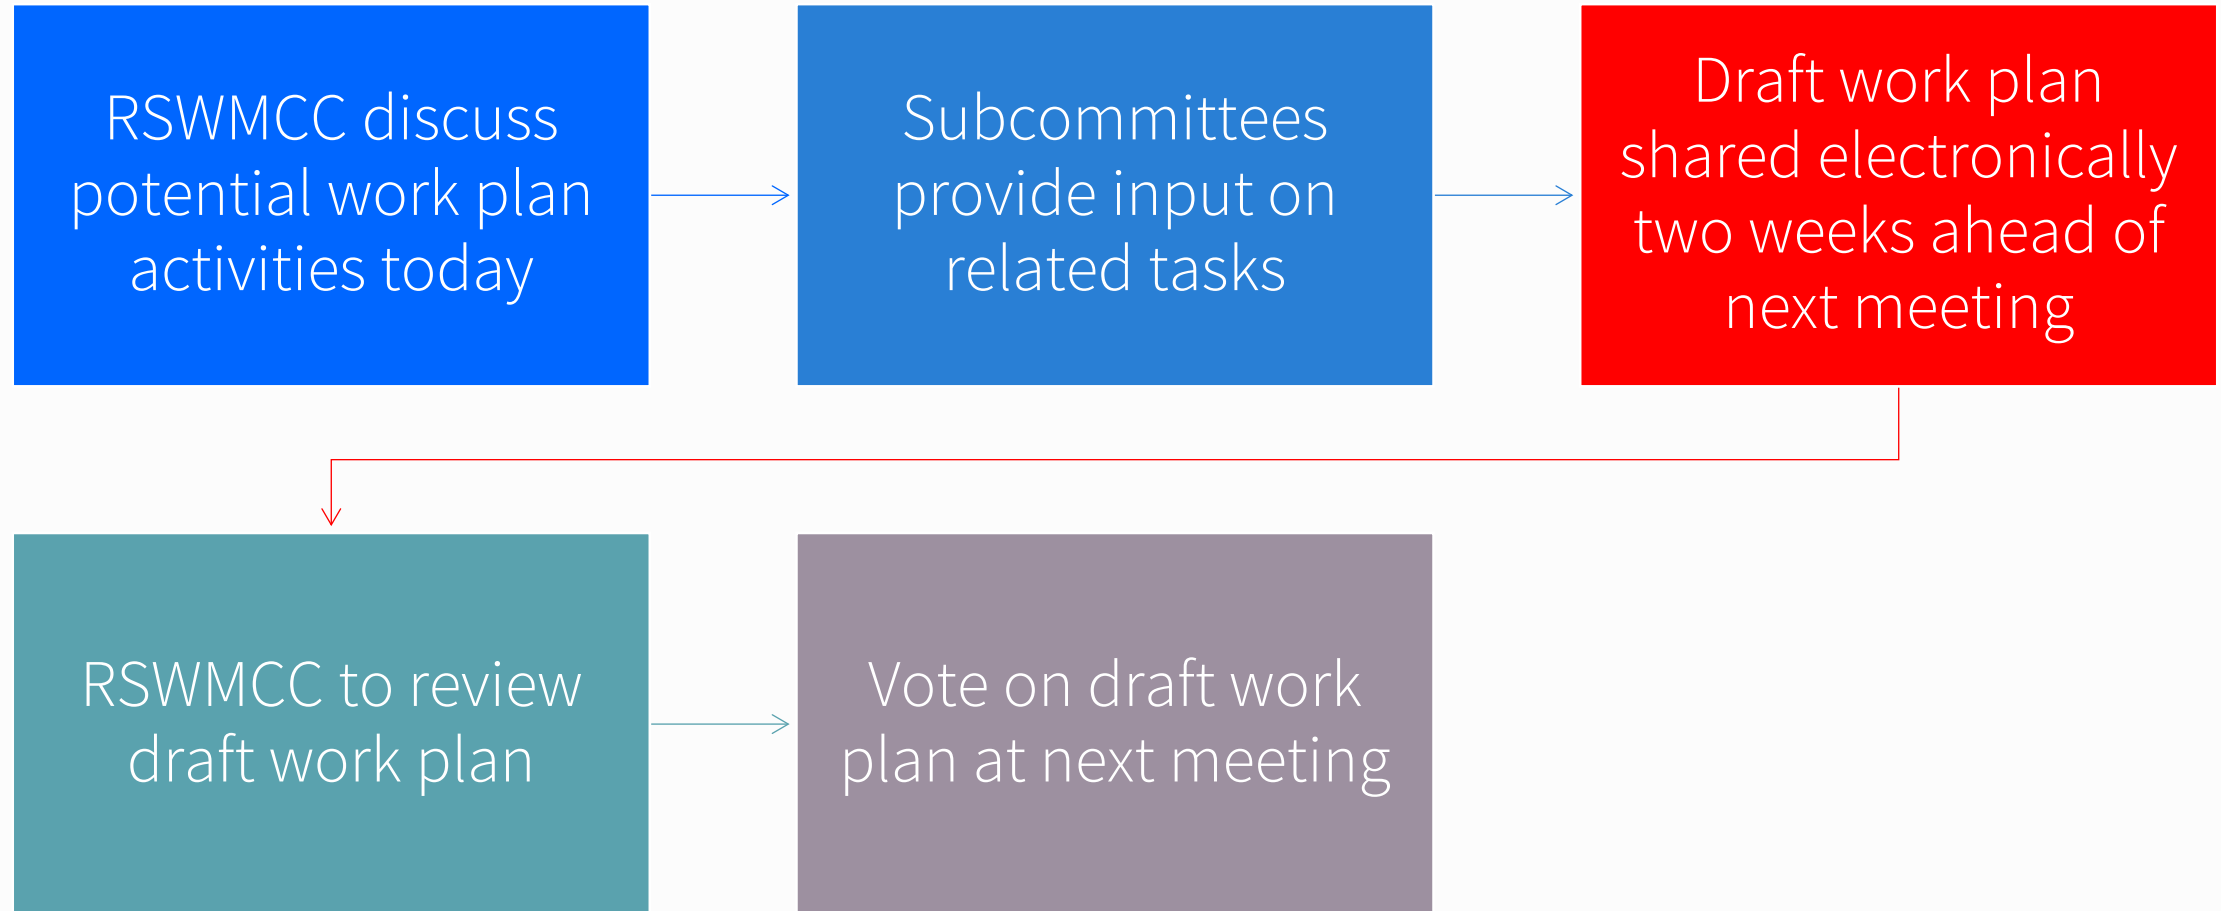

- Seats open for appointment/reappointment:
 - East Fork – William Nahas, City of Allen
 - Elm Fork – Jason Longbine, City of Lewisville
 - Main Stem – Leland Peffley, City of Cleburne
 - West Fork – Chad Marbut , City of Weatherford
- Appointment Term: FY2026-FY2028

FY26 Appointments & Reappointments

Upcoming Officer Election:

- The Chair and Vice Chair alternate between Phase I and Phase II cities.
- Current Vice Chair (Phase I city) moves automatically to Chair.
- Nominees for Vice Chair must be from a Phase II city.
- Voting will be held electronically by all Phase I and Phase II Watershed Reps.

FY26 Work Program Process

FY26 Work Program

- NCTCOG staff seeking input on and discussion of the draft FY26 Regional Stormwater Management work plan. Suggest the following highlights:
- RSWMCC – Seek guest speakers for meetings, coordinate on TSI program
- PETF – Examine current outreach programs and retool where needed
- P2 – Continuation of meetings, trainings and other identified needs
- IDDE – Continuation of meetings, trainings and other identified needs
- Monitoring – Hosting participation meetings and start new Program Term
- Current FY25 Work Plan linked [here](#) for reference
